

Head of Quality Management

Be a part of the future of healthcare- Not only a career but the opportunity to make a difference by **“CREATING VALUE BY HELPING PEOPLE”**.

If you are interested in transforming the healthcare sector worldwide, Q3 Medical will fulfil your needs for both personal and professional growth. We are a growth stage commercial company which is leading innovations in biodegradable implants and micro invasive technology for the Interventional Radiology, Gastro Intestinal, and open Surgical procedures which will change the face of healthcare, offering better clinical outcomes and reducing the overall cost of care.

We are looking for an experienced strategic leader to manage and inspire an exciting Quality Department. The next Head of Quality will transform the current structure and be adept at driving the objectives of a multicultural team, leading through change as well as contributing to the ultimate vision, mission and corporate culture of the company. This is a very exciting rare opportunity for a very ‘hands on’ person who is interested in being an integral part of leading the company into the future. A competitive salary and benefit package is available to the right candidate.

What is the Day Job

- Assist project manager on development projects
- Lead the Quality Management Department
- Maintenance and development of the ISO 13485 und 93/42/EWG QM system, adjustment to FDA and GMP requirements
- Execution on audits: Notified body, customers, legal authorities, FDA
- Complaint handling system including CAPA
- Execution of internal and supplier audits
- Development of the risk management system
- Analysis of production and quality data
- Initiation and tracking of improvement projects
- Support on validation activities for process methods and software
- Execution of trainings, especially on QM relevant topic
- Contribution to further development of Brunie (ERP-System).

What You Need

- 0-2 years of experience in medical device development
- 5+ Years Experience in a senior quality position with experience of above roles especially in the medical device sector
- Third Level Education (Level 8) in quality or related discipline
- Robust ISO 13485, ISO 14971, QSR (FDA) knowledge
- Business fluent in English and German
- Experience in internal and supplier audits as well as statistical methods
- The ability to create and manage great relationships internally having to work cross functionally but also externally, especially with FDA and other agencies.

What We Would Like

- Experience in managing and leading complex tasks and projects with the ability to plan, manage and execute
- Experienced Auditor having worked closely with/for a notified body
- Third Level Education (Level 9) in related discipline
- Be a well-organized, detail-oriented individual who can multi-task and self-manage in an open space work environment. Also be able to handle and manage constant work-related interruptions
- Be a self-starter with the ability to influence others quickly and positively. Making an instant impact in developing a team.

Please do not be shy- If you think you have the relevant experience, skills and knowledge we would love to hear from you. Q3 Medical is an equal opportunity employer.

Head of Quality Management

Life at Q3 Medical

Whilst our company was founded 25 years ago, it is still in its infancy. We have challenged ourselves to become a global leader in creating and producing medical technology that truly is **“CREATING VALUE BY HELPING PEOPLE”**

We have created an incredible sustainable culture to guide us into the future where we continue to value innovation and growth including the personal and professional our people as well. We are dedicated and loyal to our mission and each other to insure we act and feel part of the Q3 Family. Our leaders are inspiring and always look to lead individuals, teams and the company with empathy which is the foundation for our success. We encourage our employees to be there best and embrace their diversity and everything they have to offer to develop them to help us be life changing as well.

Our team is a diverse set of incredible people who bring their individual experiences, backgrounds and ideas to life every day. We believe the only way to fulfil our mission is to attract forward focused and talented people to be a part of our collective journey. We are constantly looking for well-rounded doers around the world to join our diverse team represented by almost 30 different countries who not only share what we have created in our foundation but also have the capability to develop it future through innovation, loyalty and empathy.

The more people we help whether that be patients, doctors, customers or employees the more value we create. This is our commitment to our vision of **“CREATING VALUE BY HELPING PEOPLE”**.
