

## Quality Assurance Lead

**Be a part of the future of healthcare- Not only a career but the opportunity to make a difference by “CREATING VALUE BY HELPING PEOPLE”.**

If you are interested in transforming the healthcare sector worldwide, Q3 Medical will fulfil your needs for both personal and professional growth. We are a growth stage commercial company which is leading innovations in biodegradable implants and micro invasive technology for the Interventional Radiology, Gastrointestinal, and open Surgical procedures which will change the face of healthcare, offering better clinical outcomes and reducing the overall cost of care.

We are searching for a vibrant and passionate individual to lead a dynamic QA Team and support our Head of Quality Management. This is a very exciting opportunity for a very ‘hands on’ person who is interested in being an integral part of leading the company into the future whilst developing themselves as a key leader within the company. The Quality Department being at the epicentre of the operations in Q3 Medical, it is important that this person is a positive force in driving change and influencing others not only in best practice but also process improvement, procedural excellence and corporate culture. We understand that QM Department can be perceived as the ‘Police’ but it is essential for us to live this confidence on our journey to providing incredible quality to our customers and their patients. We are looking for a no excuse mentality where learning, growth and enjoyment are front and centre in helping us achieve our ultimate Vision and Mission.

**Location** Onsite in Winsen (Luhe), Germany (40 hours per week).

### What is the Day Job

- Lead and manage the QA Team- Be the ‘Go-To’ individual for the team, providing your guidance and support for all QA Team tasks including Document Control, CAPAs, NCRs, Audits, Complaints amongst other quality related processes as well as management and leadership responsibilities.
- Ensure compliance with corporate standards/Q3 Quality Systems (QMS), site policies/procedures, regulatory requirements, and industry standards.
- Weekly, Monthly and Quarterly reporting to the Head of Quality.
- QA budget management which includes keeping track on planned vs actual.
- Plan, organise and ensure all appropriate Quality related training takes place throughout the organisation.

### What You Need

- Master / Engineer’s degree in a biomedical / scientific / law field.
- At least 5 years’ experience in Quality ideally in the pharmaceutical/medical devices industry (development, manufacturing).
- Robust ISO 13485, ISO 14971, QSR (FDA) knowledge.
- Experience in internal and supplier audits as well as statistical methods.
- The ability to create and manage great relationships internally having to work cross functionally but also externally, especially with FDA and other similar agencies.
- Business fluent in English and professional competency in German language.

### What We Would Like

- Be able to provide an inspiring and enjoyable team environment. Put the needs of the team above your own to achieve business success by coaching and challenging your team.
- Be a well-organized, detail-oriented individual who can multi-task and self-manage in an open space work environment. Also be able to handle and manage constant work-related interruptions.
- Be a self-starter with the ability to influence others quickly and positively. Making an instant impact in developing a team.
- Experience in managing and leading complex tasks and projects with the ability to plan, manage and execute.
- Be passionate about collaborating with others by taking responsibility but also keeping your team and other departments accountable.

**CREATING VALUE BY HELPING PEOPLE**

**Please do not be shy- If you think you have the relevant experience, skills and knowledge we would love to hear from you. Q3 Medical is an equal opportunity employer.**

## **Life at Q3 Medical**

Whilst our company was founded 25 years ago, it is still in its infancy. We have challenged ourselves to become a global leader in creating and producing medical technology that truly is “**CREATING VALUE BY HELPING PEOPLE**”.

We have created an incredible sustainable culture to guide us into the future where we continue to value innovation and growth including the personal and professional our people as well. We are dedicated and loyal to our mission and each other to insure we act and feel part of the Q3 Family. Our leaders are inspiring and always look to lead individuals, teams and the company with empathy which is the foundation for our success. We encourage our employees to be there best and embrace their diversity and everything they have to offer to develop them to help us be life changing as well.

Our team is a diverse set of incredible people who bring their individual experiences, backgrounds and ideas to life every day. We believe the only way to fulfil our mission is to attract forward focused and talented people to be a part of our collective journey. We are constantly looking for well-rounded doers around the world to join our diverse team represented by almost 30 different countries who not only share what we have created in our foundation but also have the capability to develop it future through innovation, loyalty and empathy.

The more people we help whether that be patients, doctors, customers or employees the more value we create. This is our commitment to our vision of “**CREATING VALUE BY HELPING PEOPLE**”.
